

## **What does the ISVA (Independent Sexual Violence Advisor) do?**

We've also got ISVAs, our ISVA she's an Independent Sexual Violence Advisor, so she supports anyone through the court process who's been a victim of sexual violence. So from the point of the person who's assaulted them or raped them, being charged, she will then explain the process, she will contact them on a regular basis, she will support them through the court process, keep them updated and then support them on the day in court as well. The ISVA also supports victims of sexual violence who aren't going through the Criminal Justice process.
